Our own editor's CMA Models booth is looking really stylish at *Automobilia Monterey*.

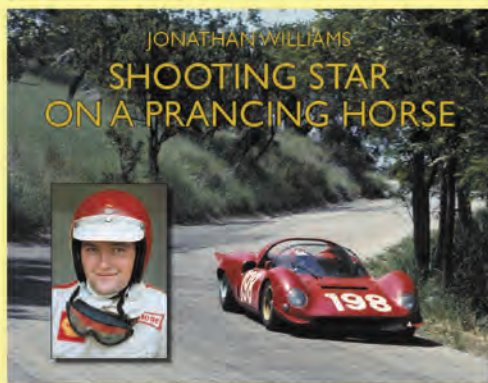

Fantastic huge Rolls Royce Spirit of Ecstasy Sculpture, nickel plated bronze on marble base at *Automobilia Monterey*.

Michael Furman at *Pebble Beach RetroAuto*, promoting *The Face of Change*, a new book by John Nikas, with his (as always) stunning photography, featuring portraits of automotive evolution. The book combines fascinating essays, detailed analysis, rare period images and beautiful studio portraiture. 215-925-4233 or [CoachbuiltPress.com](http://CoachbuiltPress.com)

Opening gala for *Monterey Motorsport Park*, Tuesday, August 13; a secured and gated community of garage/storage condominiums for car collectors and motorsports enthusiasts. Great for when travelling to Monterey week (should you be able to afford the \$317,000+ price tag), but most importantly - a blank slate to decorate with your very own automobilia collected throughout the years. If you had only one opportunity to race a Formula 1 car in a Grand Prix, which marque would you choose? A Ferrari might be the most frequent answer. In 1967, during the Saturday practice session at the Mexican Grand Prix, Jonathan Williams found himself in just such a position.

"I have to confess to feeling rather nervous at this point. I was about to mingle with some very excited people, on a track I didn't know, in a car I had never driven, the very car that the highly knowledgeable Mr. Chris Amon didn't want. I'd driven one of the previous year's 312 F1 cars once during testing at the Modena Autodromo, but this was different."
